5 - B. Form Field Tables

Form Field Tables This section of the manual includes the CARE forms and their corresponding field tables. These field tables describe each of the fields shown on the forms.

Table Columns Each table contains three columns as described below.

Column	Description
Field Name	The name of the field as it is shown on the form.
Type	The field's type (see descriptions below).
Contents	An explanation of the information to be entered in the field. If the information for the field is found in a section of the CARE Reference Manual, that fact is noted following the explanation. For example, an applicable section of the CARE Reference manual is noted in bold print as follows: **County Codes and Local Service Areas**. Decode tables are noted in bold print as follows: **Decode: Perception**.

Field Types The second column on each field table indicates the field's type. Possible types and their descriptions are shown below.

Type	Description
R (Required)	Data is required. You must enter appropriate data in the field.
O (Optional)	Optional data. If information is available, it should be entered.
O/R (Optional/Required)	Optional data in some cases/Required data in others. An explanation of when the information is required is contained in the Contents column.

Form Field Tables, Continued

_____

In This Section   Each CARE form with its field table is listed separately as follows:
