Report Number HC026740

Report Name	Daily Jail Match Report

Purpose	Provides a match of a tape submitted by components of jail admissions against the CARE database.

Distribution	Available to all components through VPS, Central Office

XPTR Reference	Application: CARE Directory: Jail.Match

Frequency	Daily

Notes	Report is produced for those components that utilize the jail match program.

Report is sorted by sex, then alphabetically by last name, with a page break between sexes.

The match algorithm uses the following fields: Last Name, First Name, SSN, Sex, Birth Date, Ethnic.

Exact match conditions match on Last Name, First Name, full Date of Birth, Sex, good SSN, Ethnic.

Probable match conditions match on last name, first initial, full date of birth, sex *or* last name, first initial, birth year, sex, good SSN *or* first 3 letters of last name, first initial, year and month of birth, sex, good SSN match to any others found *or* last name match to any others found, first initial match to any others found, age within 5 years, sex, good SSN match to any others found.

Possible match conditions match on last name, first initial, birth year, good SSN *or* last name, first initial, birth year, full first name *or* last name, first initial, birth year, first 3 letters of first name, ethnic *or* good SSN, but not on probable match list.

A total page is provided at the end of the report showing:
• number of records sent
• number of exact, found, may be, and no match matches found by males, females, and total
• percent of total records sent for each match type by males, females, and total
