

FY06 Quarter 2 Programming Changes
Implementation Date: December 1, 2005
Freeze Date: October 15, 2005

1. **Issue:** Create a new WebCARE screen to enter assignments (including MR). This screen can be used for H006 Respite, H029 Supported Housing, and H030 Supported Employment (those assignments requiring an “authorized” assessment). H034 Hospitality House, H035 Adult Inpatient Services, H036 Adult Crisis Stabilization (those assignments NOT requiring an “authorized” assessment) can also be entered on this screen.

Resolution: Identify new action code to all WebCARE users.

2. **Issue:** Do not allow the entry of an **Intake** Uniform Assessment if an assignment (H0 or TC) is open – this excludes H035 and H036. Allow Incomplete or Provider Complete but do not allow assessment to be completed until the open H0 or TC assignment has been closed (this will be similar to the Child/Adolescent functionality).

Resolution: Add functionality.

3. **Issue:** For Fair Hearings, disallow future dating if Discharge Reason is Child/Adolescent 4 (Court Ordered Juvenile Justice).

Resolution: Child/Adolescent discharge assessment screen will be modified.
